

ISLAND LOCALS.

ABOUT TOWN.

It is rumored that a new club is to be formed under the auspices of His Majesty.

Last evening Mr. M. D. Monarrat was elected Foreman of Pacific Hose Company No. 1.

The Australia only brought one day later news; the only item of importance being the war-like news from Europe.

The Schooner Malolo, Capt. Holland, sailed for Fanning's Island and the South Sea Islands with returned seamen and to recruit.

H. B. M.'s flag ship, *Triumph*, Rear Admiral Sir Michael H. Seymour, Captain H. Rose, sailed from Esquimaux for San Francisco, September 21st.

Ex-Archbishop General Neumann gave a dinner party at his residence on Saturday evening. The occasion was the departure of Mr. Wm. G. Irwin.

Mr. and Mrs. T. Rain Walker gave a very pleasant party at Waikiki on Friday last. A large number of young people enjoyed dancing on the "lawn" till a late hour.

On Wednesday next, Mr. Levey will sell the old *Sailor's Home* building, which has recently been condemned and ordered to be removed by the Trustees of the Home.

Clouds of dust are now prevailing in the city, and the tidy housewife has to keep her doors and windows closed to prevent the rooms from being ruined by this nuisance.

A paragraph in the *San Francisco Chronicle* states that a farmer has raised a large quantity of rams in Washington township, and that a portion of it is to be shipped to Honolulu.

The Australia sailed on Sunday at 2 o'clock for Sydney, after discharging a large freight. This port and taking on board about 350 tons of coal. She took a few passengers from this port.

Mr. and Mrs. Robert Lewers arrived by the Australia from San Francisco. Mr. Lewers has not entirely recovered from the serious bruising he received on the cars near Los Angeles, Cal.

Nearly every sailing vessel arriving from the Coast lately has a large quantity of bricks which were much needed—the market being nearly bare and work on brick buildings had to be suspended in consequence.

Colonel George Macfarlane returned from San Francisco by the Australia. It is not true that he brought the two millions in his grip; the Colonel says the loan is all right and every thing progressing favorably; but where is the cash?

In the Boston paper, it is stated that David M. Weston of that city, (the inventor of the Centrifugal machine, and formerly a resident of Honolulu,) has given \$20,000 to aid Mr. D. L. Moody in erecting two new buildings for his Young Ladies' Seminary at Northfield Mass.

The German gunboat, *Albatross* was at Sydney, August 8, having just returned from a cruise among the Marshall Islands. During her trip she also visited the Caroline Islands, and lowered the German flag in accordance with the agreement with Spain. A number of islands in the South Seas were also visited and summary punishment inflicted on the natives for outrages on German subjects.

On Saturday last quite a number of ladies and gentlemen were present at the Legislative Hall expecting to hear the debate on the iniquitous *Opium Bill*, but were doomed to listen to the wrangle over the equally iniquitous tax bill which passed by a vote of 16 to 14. This Bill imposes 53% per cent additional on the tax payer, who is already overburdened, without this additional weight.

The annual meeting of the Planters' Labor and Supply Co., is called for Monday next the 18th inst. It is earnestly to be hoped that a very full attendance of all the planters and those interested in sugar will be present as matters of importance connected with the sugar industry of the Islands will be fully discussed, and also the question of the further existence of the Company will be decided.

On Saturday last a very pleasant picnic party was given up by Mrs. E. S. Connel, in honor of two young ladies, Miss V. L. Gilliland and Miss Mary Cowdige, who intend taking their departure for San Francisco by the Mariposa. The picnic was held at Mr. J. H. Paty's Waikiki residence and about 40 ladies participated. A very enjoyable day was the result.

Mrs. W. S. N. Emerson, of Waialua, Oahu, mother of Dr. N. B. and Mr. Joseph Emerson, attained her eightieth birthday Sept. 7th. There was a reunion of the family on this auspicious occasion and the English speaking residents of Waialua were present to offer this venerable lady their congratulations. A very pleasant time was the result, and the party separated wishing the lady many returns of the day.

A very fine painting of Papaikou Mill and Plantation near Hilo, has been on view the past few days in the show window of Messrs. Oat & Co. Any one who is familiar with the locality will see the fidelity with which the artist has transferred to canvas the beautiful scenery represented. As a maiden effort of one of our native born artists it is worthy of special commendation. It is the work of Mr. Howard Hitchcock of Hilo.

In all probability the Legislature Assembly will adjourn on Saturday next. The session just closing has been one of extreme length and productive of few beneficial results. It has just passed the "Boss" Appropriation bill, which foots up \$4,542,477.50—a sum that will astonish the tax payers, particularly when it is noticed that many of the large amounts appropriated are merely for "fuss and feathers" and junketing parties. The next question will be, where is all this money to come from?

Mr. Dodge, of the Hawaiian Survey department has been enjoying his vacation of a month in the vicinity of the crater of Kilauea, Hawaii, and has employed his leisure hours in drawing a map of this celebrated crater, which is spoken very highly of by Prof. Alexander. Mr. Dodge has noted many changes in the crater during his short sojourn there, and feels confident that Madame Pele will soon put forth her best efforts to make a visit to this wonder of the world both grand and interesting.

The expanse is to many a favorite place of resort, and should receive some attention from the Road Supervisor, or the Minister of the Interior. In dry weather it is ankle deep with dust. When the trade winds blow the clouds of dust are very annoying. When a heavy rain sets in this dust is converted into the softest kind of mud and not infrequently lakes of dirty water meet the unfortunate pedestrian in all directions. There is no good reason why this portion of the city should not be thoroughly macadamised and placed in good condition for pedestrian as well as for vehicles.

The new Temperance Hotel recently fitted up by J. T. Watkinson Esq. is soon to be opened by that gentleman, with Mrs. James T. White, formerly and favorably known, as manager of the White House, Nuuanu Avenue. The new Hotel is located on Nuuanu Avenue, just above Kukui street, one of the most quiet and salubrious sections in the city, and within ten minutes walk of the Postoffice and business centers. The house is furnished throughout with the newest and latest designs in furniture, and with the efficient management, there is no doubt that guests will be well cared for, and will be sure to call again.

On Friday the 9 o'clock 'Bus for Waikiki was unfortunately overturned near Pawa, by the carelessnes of the driver of one of the Government dump carts backing his cart deliberately against the 'Bus horses, thereby throwing the 'Bus into the ditch. Fortunately there were only a few passengers, among whom were Mrs. T. B. Walker and son, and all escaped with a few bruises and a bad shaking up. The driver was the only one who sustained serious injury being badly bruised by falling under the 'Bus. This is the same man it is said who a short time ago maltreated some Chinese men who displeased them while passing by. It is high time this sort of amusement should be stopped.

The Oahu Association of Hawaiian evangelical churches has been in session the past week in Kanakapili Church, from Wednesday till Saturday. The usual reports of the condition of the churches were presented, the Waialua Church giving a particularly noteworthy account of good work and spiritual progress. One young man was licensed to preach, who is to supply the church at Hauula and Kahana. Two candidates were reported for the North Pacific Missionary Institute.

Strong resolutions against the Opium Bill were voted and signed by every Hawaiian Minister. Next Sunday, Oct. 17, is to be observed as a day of special prayer for Sunday Schools in accordance with the new world-wide observance of that day for that object.

By the Steamship Australia, from San Francisco, Oct. 9th the following Islanders arrived home. Col. G. W. Macfarlane, W. H. Bailey, J. Marston, Mrs. C. A. Chapin, S. C. Allen and wife, H. T. T. Jones, Miss Hopp, J. N. Wright and wife, Miss J. Lishman, Geo. Gilbrath, Geo. C. Williams.

The monthly meeting of the Honolulu Fire Department took place on Thursday evening. The Chief Engineer, from the relief committee, presented a full report which was accepted. Mr. Ordensstein proposed that the department should celebrate His Majesty's fiftieth birthday by a torch-light procession, which was agreed to.

Peter Murray, a passenger by the *Likeli* from Maui, Oct. 9th, died on the steamer shortly after leaving Kahului Friday evening. Deceased had been ailing for a short time previous, and was on his way to this city for medical treatment, when death suddenly put an end to his troubles. Mr. Murray had been engaged as a locomotive engineer at Spreckelsville during the past two years.

To-morrow, Messrs. E. P. Adams & Co. will hold one of the most attractive sales of the season, being a rare lot of feather leis of various kinds, and a fine lot of rich jewelry belonging to the estate of the late Queen Dowager Emma. This will probably be the last opportunity our citizens will have of securing relics of this highly esteemed deceased lady. The sale will take place at the late residence, corner of Beretania and Nuuanu streets.

HAWAII.

The yacht *Brunhilde*, arrived at Hilo on Friday Oct. 1st.

The Tax Appeal Board met at the Court House on Thursday, Oct. 7th.

The yacht *Brunhilde* sailed from Hilo on Thursday, Oct. 7th, for Tahiti.

Mr. and Mrs. C. C. Kennedy and son, Mr. Geo. Deacon, Mr. Chas. Hitchcock, Mr. Welch and Mr. McLellan came to Hilo from San Francisco per Emma Claudina.

The Emma Claudina, Wm. Matson Master, arrived at Hilo on Monday, Sept. 27th, 17 days from San Francisco with a full cargo of general merchandise, 2 horses, 1 cow and 70 dogs.

The brig *Hazard*, Capt. Goodman, sailed from Hilo on Saturday, Oct. 2nd, for San Francisco. She took 125 tons sugar from Papaikou Sugar Plantation and—bbls. of molasses from Laupahoehoe.

Mr. Greeley took passage on the *Hazard* on Saturday the 2nd inst., for San Francisco. He will be missed by the many friends he has met at Hilo during the past few months. They all hope his health may be fully restored, and that he may greatly prosper in his plans.

The Elephant.

Dr. Hill, a lightning tooth extractor and vender of certain proprietary medicines, arrived by the *Mararou* accompanied by a young trick elephant, and opened in the lot immediately in the rear of the shooting gallery last week, where he had large crowds in attendance to hear him and see the elephant. The doctor's forte seemed to be in drawing teeth without pain and in rendering relief to those afflicted with deafness—without charge—and selling a blood purifying medicine, and a lotion for the ears. After disposing of all the "cure-alls," the elephant was brought on the platform and performed a number of tricks, when the audience were dismissed. Dr. Hill had an office during the day next the shooting gallery where he waited on those who did not wish to go on the platform to have their teeth extracted or their ears examined. It is needless to say that his office was besieged with patrons, and his reward for his cleverness was a goodly number of "shakels."

The Burnt District.

Work on the brick buildings is now being pushed vigorously. A walk through that portion of the burnt district bounded by King, Nuuanu and Hotel streets, will prove interesting to our residents.

On Hotel street, Mr. Lucas has commenced the walls for Mr. Mendouca's new building, and will shortly break ground for another building adjoining, for the same gentleman, to extend to the corner and about 80 feet on Nuuanu street. Mr. Thomas is erecting a two-story brick building on the east side of Nuuanu street for a Chinese firm. The same gentleman has a two-story building, on the west side of Nuuanu street, for Mr. Aswan, well under way. The building will be divided into three stores. This will make one side of Nuuanu street almost complete from King to Hotel street. In a short time operations will be commenced on the opposite side of Nuuanu street to rebuild on the other vacant lots. Mr. Thomas will also erect the two stores for His Honor A. F. Judd, on Fort street, as soon as the lot is cleared off.

Mr. Mayhew has the contract for erecting the new Chinese Club House, and the cellar is being cleaned out and portions of the old walls removed, preparatory to commencing operations on the new structure.

The two buildings to be erected on the southwest side of King and corner of Maunakea street have only the foundations laid as yet, but will soon be pushed ahead. Mr. Asea has succeeded in securing tenants for all his stores in the new brick building just finished, corner of King and Maunakea streets. The large two-story brick building, done by Chinese masons, on the corner of Hotel and Smith streets, is nearly completed, and the outer walls are being painted red and pencilled with white. The cornice is being ornamented with cornices. The new building, east corner of Maunakea and King streets, is receiving the finishing touches, and presents a fine appearance. The windows and doors are receiving iron shutters and doors, making it fire-proof.

The Water Front.

During the week the foreign arrival and departure of ships has been very busy. The grinding season on the plantations being over, sugar freights are light and will continue so until the middle of December, when the usual activity will again prevail in handling the crop.

The barkentine *Ella*, from San Francisco, arrived on Monday Oct. 4th, with a full cargo of assorted goods including a large lot of bricks. The *Ella* is discharging at Brewer's wharf.

On Thursday morning the fine steamship *Gaelic*, of the Occidental and Oriental Line, arrived from San Francisco after a fine run of 6 days and 20 hours. Owing to her large size (5000 tons) the steamer remained outside. She brought 35 Chinese passengers for this port, and had nearly 1000 more for Hong Kong, exclusive of about 3000 passengers mostly for Yokohama. The *Gaelic* sailed next 11 o'clock, the same evening for Hong Kong, taking 25 Chinese passengers from Honolulu.

The bark *W. S. Bowne*, is discharging just above the Oceanic wharf. It is rumored on the front that Capt. Paul, her commander, will leave the *W. S. Bowne* shortly to take charge of a new vessel newly completed on the Sonoma.

Capt. Hubbard, formerly of the *Calbarien*, has gone to the Sound to command the new barkentine *S. N. Castle*, now nearly ready for sea.

Capt. J. G. Winding is commander of the *Eureka*, and expects to sail for San Francisco during the present week with only a partial cargo.

The steamer *C. R. Bishop* took up on Thursday a large lot of heavy sugar machinery for Hong Kong. *Kukuhaele* Mill and was also obliged to take along a large scow with her to land it.

The schooner *Mary C. Bohm*, recently purchased for the Inter Island Steam Navigation Co., is in the hands of the ship carpenters and will soon be ready for service. On examination her timbers were found sound, and when thoroughly overhauled she will prove to be a staunch and serviceable vessel.

The French schooner *Hammonia*, recently purchased by Mr. F. Butler, is receiving a thorough overhauling at the hands of her owner, and when completed will be fit for any service—foreign or coastwise.

Early Saturday morning the steamer *Australia* arrived from San Francisco, having sailed from the last city on the 1st inst. The *Australia* brought mail and a large passenger list for this port. The steamer also brings a good freight. The *Australia* sailed Sunday at 2 p. m., for Sydney, to take the place of the *Mararou* which latter vessel is to be withdrawn from the service for the present.
